Insurance Department

Report to:
Governor Norman H. Bangerter

From:
Commissioner Harold C. Yancey

Business of 1990

November 18, 1991

Dear Governor Bangerter:

Pursuant to Section 31A-2-207 of the Utah Insurance Code, the 81st Report of the Commissioner of Insurance is herewith respectfully submitted.

Insurance continues to play a vital role in the lives of our citizens and the success of the business community. Fair, effective, and timely regulation of the industry enhances the ability of the industry to fulfill its role in our growing economy.

New products regularly appear in the market place, especially in the health care field. Solvency of companies has become a major regulatory concern and additional Department resources are being directed toward an effort to reduce the number of insolvencies that occur. The number of new domestic companies organized in the state continues to grow.

We are committed in the Department to fulfill our role as efficiently as possible and to support your goal of helping the "customer", the citizens of this great state.

Respectfully submitted,

Harold C. Yancey, CPCU
Insurance Commissioner

Administration Division

Administration Division

The Administration Division is responsible for personnel, inventory, data processing, and the preparation and submission of the department budget.

Olga Tsakakis, Manager of Administrative Services

For the fiscal year (FY) ending in 1990, the budget for the department was $1,978,883 and the revenue was $2,484,140.

To date our personnel have consisted of 49 full time employees (FTE) of which 10 are in administration. The 1991 Legislature approved three additional staff members, one Market Conduct Examiner and two Financial Examiners which will bring the total FTE's to 52.

Presently the department is located in the State Office Building.

The Utah Insurance Department has been at the forefront of change in its computerization efforts both among state agencies as well as other insurance departments. The computer system maintained by the department contains a data base of all licensed insurance companies, agents and organizations, insurers annual statement information, docketed actions and proceedings, insurance rules, license history, complaint history, fee/revenue collections, and examiner billings.

Our data processing goal is to improve the level of automation support for the department.

The department would like to develop specifications for a new data base automation system that will improve the efficiency and effectiveness of the staff.

The areas of concern for the Administration Division are:

- ☆ the communication function between the NAIC and our present system;
- ☆ the automation of the field examination process; and
- ☆ improved automation of the licensing process.

Licensing Division

Licensing Division

The Licensing Division is responsible for issuing licenses to agents, brokers, surplus lines brokers, adjusters, consultants and organizations, including third party administrators. The staff, which consists of a supervisor and three office technicians, process all applications for licenses, all fees received by the department, and appointments and terminations of agents by insurance companies.

When agent licenses were renewed April 1, 1990, 15,728 individual licenses were renewed and 2,786 organization licenses were renewed.

Pre-licensing education requirements must be met by each individual applying for an agent's license. Agent examinations were administered by the Insurance Testing Institute until the end of November, 1990. Beginning December 1, 1990, the department contracted with the Insurance Testing Corporation of St. Paul, Minnesota, to administer the examinations. From 12-1-90 to 1-31-91, ITC administered 263 examinations at the local examination site in Salt Lake City.

Also in 1990, drafting of the new continuing education rule began. A committee comprised of industry representation, along with department representation, spent many hours drafting proposed language for a rule. The rule will be in effect for the 1992 renewal year.

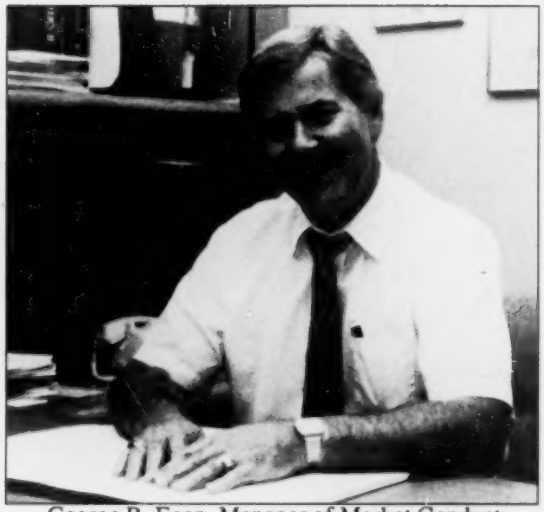
Market Conduct & Consumer Service Divisions

Market Conduct Division



George R. Egan, Manager of Market Conduct and Consumer Service Divisions

The Market Conduct Division is charged with the responsibility for:

- ☆ investigating and resolving alleged violations of the Insurance Code; and
- ☆ examinations of the market conduct affairs of companies, adjusters and insurance producers to assure their compliance with the Insurance Code and rules.

During 1990 effort was placed in continuing the enforcement of the fiduciary responsibility of property and casualty agents under trust account arrangements. By way of survey and audit, extended warranty practices were better understood and regulatory quidelines were formulated. The first private passenger auto and homeowners insurance comparison tables, as required by the legislature, were compiled, printed and widely distributed.

1991 Market Conduct Goals

(1) Arrange by legislative mandate to have the escrow activities of non-insurance connected organizations to be regulated by the Department of Financial Institutions.

(2) Focus, by way of audits, on the fiduciary responsibilities and title insurance rating activities of title insurance organizations.

(3) Initiate a survey directed to all lending institutions to better understand the Vendors Single Interest (VSI) insurance market in order to recommend appropriate legislation and to formulate definitive guidelines in the form of a rule to assure fair and equitable treatment of insureds subject to this coverage.

(4) Write an Unfair Marketing Practices Rule for all lines of insurance.

(5) Recommend and support legislation relative to the marketing, issuance and control of extended warranty insurance and service contracts.

(standing l.) John M. Coomans, Dawn Alumbaugh and C. Robert Schaaf
(seated l.) Judy Whalen, Joe Taylor and Helen Cunningham

1991 Consumer Service Goals

(1) Continue to educate consumers regarding insurance regulatory requirements through public speaking engagements and release of information to the news media.

(2) Distribute rate comparison and education pamphlets to consumers.

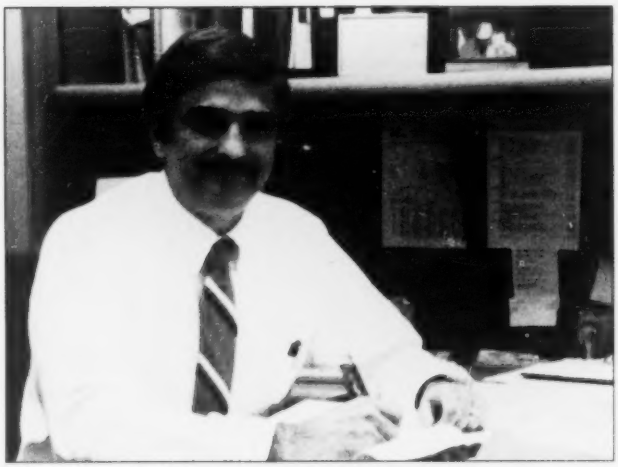
(3) Take note for further investigation any information which may reflect solvency problems, and quell unfounded rumors regarding solvency of licensed carriers.

IV

Examination Division

Examination Division

The Examination Division watches over the financial health of companies. Early detection of potential problems is one of their primary objective.



Billy W. Lovelady, Chief Examiner

In order to fulfill this responsibility, the Examination Division:

1) Conducts financial examinations of domestic and foreign insurers, with an emphasis on solvency and compliance to rules and the Insurance Code.

2) Provides a written report to the commissioner with recommendations and a full disclosure of the financial condition of the insurer.

3) Assists in the supervision, rehabilitation and liquidation of insurers when necessary.

The division also acts as liaison between the Life and Disability Insurance Guaranty Association and the Property and Casualty Insurance Guaranty Association.

Solvency Surveillance Division

Solvency Surveillance Division

Len Stillman, Director of Solvency Surveillance

The Solvency Surveillance Division has been in existence since December 1988. Before that time it was a part of the Examination Division. One of Commissioner Yancey's goals since coming to the department has been to reorganize and strengthen this area of the department to keep up with the growing number of insurers being licensed to do business in Utah.

One of the main duties of a state insurance department is to keep watch over the financial health of insurers doing business in their state, and to protect their citizens, as much as possible, in the event of the decline in financial health of any of these insurers. This is a massive job when one considers the 1,479 foreign insurers and 55 domestic insurers licensed to do business in Utah.

The Solvency Surveillance Division has responsibility for:

- ☆ The licensing of all foreign insurers.
- ☆ Monitoring the solvency status of foreign, domestic and surplus lines insurers, and risk retention groups, to provide an early warning of financial difficulty.
- ☆ Coordination with the Examination Division to pinpoint potential problems with domestic insurers.
- ☆ Assisting in the supervision, rehabilitation and liquidation of insolvent insurers.

Rate/Form Division

Rates/Forms Division

The Rate and Forms Division was organized as a separate division in 1989. Its primary responsibility is the review of policy rates and forms filed by insurance companies.

Vanna Hunter, Rates/Forms Supervisor

In 1990 the division staff consisted of one property and casualty analyst, one life analyst, one health and accident analyst and a forms analyst technician. Together they reviewed and processed over 16,600 company filings. (Best guesses put that at about 4 tons of paper.)

Though the statute does not give prior approval authority, the analysts are charged with:

- ☆ examining and analyzing rate filings to determine if they are excessive, inadequate, or unfairly discriminatory as defined in the statute; and

- ☆ reviewing policy forms to determine if they are inequitable, unfairly discriminatory, misleading, obscure, or encourage misrepresentation.

In addition to the review and analysis of filings, the division has specific responsibilities dealing with medicare supplement policies, credit life and disability market analysis, the monitoring of the excess and surplus lines market, entities organized under the Federal Risk Retention Act of 1986, and the licensing of rate service organizations.

FAST TRACK MONITORING STATISTICS

The attached graphs and data are taken from the Fast Track Monitoring System report that is received by the Commissioner on a quarterly basis. This report presents consolidated countrywide data and Utah data. The report is based on data reported to the Insurance Services Office, the National Independent Statistical Service and the National Association of Independent Insurers by participating insurers writing significant shares of the total countrywide markets for each of the lines included.

It needs to be noted that the countrywide loss rations derived from earned premium and incurred loss experience do not include data for California and New Jersey. This is because of the November, 1988 passage of Proposition 103 in California and provisions in the March 12, 1990 law in New Jersey.

The claims amounts used in these calculations include only the amount paid to claimants. They do not include the company expenses for claims adjustment.

One thing that must be remembered about insurance statistics is that it takes time for claims to develop, be reported, adjusted and settled. The Fast Track report is the most current report available to us. However, the most recent figures included in the report cannot be considered final. There may be further developments in the claims that can result in future adjustment in the figures.
